Defining tomorrow, *today.*

**CERVICAL  
HEALTH  
SCREENING**

# EVA Pro with AI (optional) for Cervical Health Screening!

**EXPERT  
ASSISTANCE**

AI clinical decision support  
based on the analysis of  
leading colposcopists

**POINT OF  
CARE**

VisualCheck & the EVA System  
combine to provide high quality  
visualization and quality  
controls for any location

**SAVE  
TIME**

AI answers are provided quickly  
to improve the time  
management of patient visits

# EVA PRO - The Gynac Stethoscope

A turn-key cervical and vulvar visualization solution to streamline how you perform, document and review patient cases.

Paul Blumenthal, M.D., Professor Emeritus of Obstetrics and Gynecology, Stanford University.

“AI is the future of women's health and I am a great believer in its potential to revolutionize cervical cancer prevention”

**Hands free image capture**  
For optimal use

## Digital touch screen

Enhances the visualization experience, allowing to zoom in on images and perform the examination in a convenient manner.

## Sophisticated software with annotation capabilities

Save images with notes, annotate biopsies and points of interest, add clinical impressions, edit in device or on portal.

## Built in camera with magnifying capabilities

Superior image quality, you can identify a lesion as small as 0.05 mm

**FAST · SECURE · EASY · AFFORDABLE**

*The EVA System is one of the greatest things to happen to women's cervical health. It is really amazing to go back and review results versus my initial impression of individual lesions.*

**Bonnie Betts**  
NURSE PRACTITIONER,  
FPA MEDICAL

## EVA System

# Goodbye Big & Bulky "Hello EVA Pro" Enabled with AI (optional)

The FDA-cleared EVA COLPO is a portable, internet connected colposcope that is as simple to use as a smart phone. The EVA System combines advanced hardware with integrated software to serve a variety of clinical needs

### Choose the EVA System smart colposcope to utilize:

#### A simple interface

EVA's easy-to-use software enables patient data management, image and video capture, annotation tools, clinical decision-tracking, and simple case export for integration into EMRs

#### Improved workflow

EVA's integrated data collection and online storage solution reduces unnecessary paperwork and saves time

#### Enhanced clinical services

EVA's affordability enables cervical examinations with a video colposcope at a fraction of the price of a traditional colposcope

#### Real-time or after the examination

Use EVA to stream your examination live to any place around the world or use secure case-sharing features to receive clinical support and quality assurance from experts and peers

#### Empowered patient experience

Enhance patient understanding of their health condition, diagnosis, and treatment options through educational image review

# Screen & Treat in a single sitting! A Holistic Approach To Women's Health

## ThermoGlide

Treating precancerous lesions  
with thermocoagulation

## EVA Pro

Digital Colposcope
